### Vinyl Record Conversion (Audio-Technica AT-LP120XUSB)

#### What to bring:

- Vinyl records -- 33/45/78 speed
- Flash Drive
- CDs

#### What is provided:

- Turntable
- Audacity Software for audio capture and editing

#### Instructions for use:

- 1. Turn the turntable on.
- 2. Place your record on the turn table and press the start button.
- 3. Select the correct RPM for your record.
- 4. Lift the tone arm and move to the track where you want to start recording.
- 5. On the computer desktop using the left mouse button, double click the "Audacity" program icon.
